[CV \(extended version\) in PDF](#)

Summary

I'm a Principal Research Scientist at Symanto, a data analytics company based on psycholinguistic profiling. In this role, I work with my team to provide our data analysis platform with novel solutions based on the latest techniques of natural language processing, machine and deep learning.

I have more than five years of experience as a researcher in projects related to multilingual natural language processing and information retrieval. Those projects allowed me to acquire a strong background in machine learning, data science, analytics, and mining.

I'm a truly passionate, focused, and creative researcher. I like to read blogs and scientific papers about computational linguistics, data mining, and deep learning to keep up with the latest advances. While I enjoy all aspects of my job, I think my favorite stage of a project is defining the main data pipeline to solve a concrete objective. I also find very stimulating the part of the result analysis and pipeline tuning.

I obtained my PhD in computer science in the Universitat Politècnica de València (Spain) with cum laude distinction, where I also obtained my Engineer's Degree in Computer Science and my Master's Degree in Artificial Intelligence, Pattern Recognition and Digital Image. In the course of my career I have published near 25 scientific articles, some of them in top conferences, and participated in several research internships around the world.

Professional experience

Principal Research Scientist

May 2018 - Today

[Symanto](#)

- Person in charge of the research staff
- Decision making on new lines of research and their implementation
- Supervision and participation in the development of the new artificial intelligence-based solutions

Innovation Lead

Apr 2017 - Apr 2018

[Symanto Group](#)

- Lead a team of data scientists and psycholinguists
- Provide the data analysis platform with novel solutions based on the latest techniques of natural language processing and deep learning

Data Scientist

Dec 2016 - Apr 2017

[Symanto Group](#)

- Research on cross-lingual and cross-domain deep learning solutions
- Application of data science techniques to text analytics

Research Fellow

Sep 2016 - Nov 2016

[Data and Web Science Group](#), [Universität Mannheim](#)

- Research on several natural language processing projects

Data Scientist**Jun 2016 – Aug 2016**[Symanto Group](#)

- Research on cross-lingual deep learning solutions
- Application of data science techniques to text analytics

Senior Technician – NLP researcher**Jul 2014 – May 2016**[PRHLT Research Center](#), [Universitat Politècnica de València](#)

- SOMEMBED research project, funded by the Spanish Ministry of Economy and Competitiveness
- DIANA-APPLICATIONS research project, funded by the Spanish Ministry of Economy and Competitiveness

Technical Specialist – NLP researcher**Apr 2014 – Jun 2014**[Italica Research Group](#), [University of Seville](#)

- DOCGU research project, funded by the Spanish Ministry of Economy and Competitiveness

Research Fellow**Apr 2013 – Mar 2014**[Linguistic Computing Laboratory](#), [Sapienza University of Rome](#)

- MultiJEDI research project, funded by the 5-year ERC Starting Grant No. 259234

Senior Technician – NLP researcher**Aug 2012 – Dec 2012**[NLE Lab](#), [Universitat Politècnica de València](#)

- TEXT-ENTERPRISE 2.0 research project, funded by the Spanish Ministry of Education and Science

Education**PhD in Natural Language Processing and Information Retrieval****Mar 2013 – May 2017**[Universitat Politècnica de València](#), Valencia, Spain

- Title: A Cross-domain and Cross-language Knowledge-based Representation of Text and its Meaning
- Score: Cum laude

MSc in Artificial Intelligence, Pattern Recognition and Digital Image**Sep 2011 – Feb 2013**[Universitat Politècnica de València](#), Valencia, Spain

- Title: Cross-Language Plagiarism Detection using a Multilingual Semantic Network
- Final score: Cum laude

BSc in Computer Science Engineering (5-year degree)**Sep 2006 – Sep 2011**[Universitat Politècnica de València](#), Valencia, Spain

- Specialization in Artificial Intelligence and Languages
